RBM Com has big events in mind.

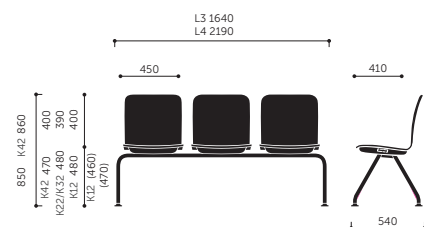

The simple plywood monoshell is available in various wood and high pressure laminate (HPL) finishes. Gentle contours and a range of upholstery options give RBM Com an extra level of comfort. RBM Com is available with four legs and a sledge base, among others. It is suitable for many environments such as lecture theatres, meeting rooms and cafeterias. The collection includes a selection of accessories that make it easier to number, stack or link chairs in rows, essential functions when organising large events.
