

RBM Mickey

Base plastic colours

-  Light grey (RAL 7047)
-  Grey (RAL 7043)
-  Beige (RAL 7036)

RBM Mickey is the perfect seat for those looking for a more active approach to work.

The seat swivels and swings from side to side and has a height adjustment that goes from a low pouffe to a seat. This provides support during standing work, but can serve different needs – either quick conferences for several people or sitting at a desk with someone for a while.

Secondly, thanks to a special handle, the seat can be easily moved, rearranged and height adjusted all at the same time. RBM Mickey can be ordered in pastel or more expressive upholstery colours in combination with neutral plastic colours.

The RBM Mickey is developed in line with human factor considerations and can be used for active deskwork, both seated and standing. It also follows your position flawlessly with a built-in 10-degree tilt to either side. These changes of position during work provide active seating support.

Design by: ITO Design

Bringing life to rooms

Soft, profiled foam makes sitting more comfortable.

Thanks to the tilt function, the seat follows the user's position.

Height adjustment range (33 cm) and swivel function provides active support even in a standing position.

Compact structure makes RBM Mickey easy to move around.

Description of model

Weight

Stool, swivel w/height adjustment and sideways tilt 10° 11,5 kg

Product specification

- The seat swivels and swings from side to side with a built-in 10-degree tilt for active support and has a height adjustment that goes from a low pouffe to a seat.
- The sides of the base can be made of:
 - the same fabric as the seat,
 - plastic in the same colour as the rest of plastic elements.
- Plastic elements and the cover of the gas lift are made of different materials; colour might vary slightly.
- Three base/frame base colours.
- With the special handle the seat can be easily moved, rearranged and height adjusted from a low pouffe to a seat.
- Handle for height adjustment is always made of the same fabric as the rest of the seat.
