RBM SoftBox can be described in three words: softness, precision and modularity.

The corner element enables the user to arrange RBM SoftBox sets in any chosen configuration to harmonise them with other interior design elements. The seats are supported by subtle 'ribbons' – aluminium or wooden legs that appear delicate but provide a stable base.

The collection consists of various elements, pouffes, an armchair, two and three seat sofa with or without armrests and a square table.
